Commissioner for Patents

Regarding the applicant's supplemental response to the election/restriction requirement filed, the examiner acknowledges receipt of the explicit declaration that new claims 13 and 14 are generic. This supplement renders the election fully responsive. As these claims have been rejected in the office action dated 5/12/2009, this does not restart the time period for response to that office action, and it also does not require a separately filed response than the one associated with that action.
